Ex dims: 763mm wide x 865mm Long x 1725mm high. Internal dims: 605mm wide x 790mm long x 1460mm high

Safe Load: Roll Cage 500Kg Shelf 150kg.

Manufactured from prime ERW-grade mild steel with joints welded for outstanding strength and durability.

Finish bright electro-zinc plating with a lacquer coat as standard. Other finishes are available to order.

Shelves hinged or detachable with optional heights.

Wheels 125mm diameter nylon or tyred wheels
With option of plain or roller bearings, with or without thread guard.

Wheeled container for the safe and secure transportation of a wide range of goods built upon a strongly constructed "A" Frame chassis. The standard Roll Container model includes four sides rectangular floor all with robust framing and heavy duty mesh infill. Optional hinged or detachable shelves can be specified. For convenience and ease of storage when not in use the sides can be folded. Large numbers of "A" frame containers can then be nested together by pushing the narrow part of the container into the wider rear section of the next container.

Product ID : DynHCR Security Roll Cage with Single shelf
